

Phone-In FLOOD CHECKER™

Now you can phone your home or cabin from anywhere to check for flooding.

Actual Size

- **Connects in seconds**
- **Plugs into any phone jack**
- **Works with existing phone line**
- **Simple to use**

- 1) Position water sensor to monitor flooding.
- 2) Plug into any phone jack and turn on.
- 3) Position 20 foot water sensor wire near potential flood source.
- 4) Call existing phone number. Continuous ring indicates no water. If the phone answers and a tone sounds, water is present.

- **No batteries required.**
- **Extra cable coupler included.**
- **FCC approved.**
- **One-year limited warranty.**
