

PowerOUT!™

POWER FAILURE ALARM & SAFETY LIGHT

Never sleep through a power outage again... or be caught in the dark

Plug the PowerOut! into a 120V outlet. When the power fails, it will emit a pulsing 86dB alarm and illuminate 3 ultra-bright LEDs to provide safety lighting. The PowerOUT! can be removed from the outlet and when the 3-position switch is set to the "light" position it will silence the alarm and the LEDs will provide up to 8 hours of portable lighting.

Patent pending

- Rugged ergonomic case
- Plugs into any 120V outlet
